

Investment Fund Fondita Sustainable Europe

Key Investor Information Document

This document provides you with key investor information about the fund. It is not marketing material. The information is required by law to help you understand the nature and the risk of the fund. You are advised to read the document in order to make an informed decision about whether to invest.

I-unit ISIN-code: FI4000411194

The fund is managed by Fondita Fund Management Company Ltd.
Aleksanterinkatu 48 A, FI-00100 Helsinki, Finland
info@fondita.fi, 09-66 89 89 0 Business ID: 0899688-8

The aim and investment policy of the fund

Fondita Sustainable Europe is an equity fund that invests in shares of publicly traded companies in the EU, Great Britain, Switzerland and Norway, that through their activities promote sustainable development.

The objective of the fund's investment activities is to attain best increase in value possible in the long run through diversifying the assets in compliance with the law concerning investment funds and with the rules of the fund.

The fund's investments are focused, and consist of about 35 holdings. The fund does not use derivative instruments. The fund's investment philosophy is based on stock-picking. The fund management is active and the fund does not have an official benchmark.

The fund's investment decisions take the environmental and social impacts of companies and governance into account, as well as risks related to this.

Companies with a strong competitive position, a promising outlook, a good profitability, a strong balance and preferably a visible owner, are chosen into the portfolio. The investments are long-term, and are made in both growth- and value companies.

Fund units may be subscribed (bought) and redeemed (sold) at the Fund Company on every banking day in general.

When making the investment decision, the investor is to be aware of that the value of the fund can vary significantly.

The fund is nominated in euro but because the fund invests in companies within other currency regions the fund value is affected by currency changes. Any income received from the fund's investments, such as dividends, is reinvested.

The recommended minimum investment horizon is 7 years.

Risk and Reward Profile

The relation between risk and return is shown in the picture above.

A high number means that the fund has a higher risk and that the value of the fund can vary greatly. This means that both return and risk potential is greater. A lower number means less risk. The lowest category of risk does not, however, mean that the investment is risk free.

Based on the current risk-reward profile of the fund, it's not possible to foresee any future risk-reward profile.

The risk indicator doesn't necessarily take the following into consideration: noticeable change in the value of money, political incidents or other unexpected events.

The fund is geographically well diversified. Therefore the fund is not subject to any major country risk.

Because the fund invests in companies listed in other currencies than euro, currency changes affect the value of the fund.

An investor should be aware of a liquidity risk that may occur if the fund cannot sell its equities within a reasonable time. This may lead to delays in payments of redemptions.

Unchanged risk level isn't guaranteed. The risk category may change in the future.

The risk category of the fund is 6, based on the fluctuations in the performance of the funds B-units over the last 5 years. This means that the fluctuations are expected to be significant.

Charges/fees for the fund

Charges in connection with the subscription and redemption of fund units

Subscription fee	0,00 %
Redemption fee	1,00 %

These are maximum fees of the subscription price or of the redemption of fund units.

The fees are maximum figures.
An investor might in some cases pay less.

The management fee is 1,20% per annum.
Custodian fee is included in the management fee.
The management fee does not include transaction costs paid by the fund.
These charges reduce the potential return on the investment.

Charges taken from the fund over a year

Ongoing charges	1,20 % p.a.
-----------------	-------------

Other

Performance-based fee	No fee
-----------------------	--------

More detailed information about charges/fees is available in the fund prospectus, at www.fondita.com.

Past performance

The past performance of the investment fund does not provide any guarantee of future results. Depending on market conditions, the fund unit value may rise or fall. The future performance of the funds depend on the development of the markets and the Fund Manager’s success with the chosen investments.
A decline in the share prices can lead to a negative return.

The daily fund unit value reflects the deducted management fee.
The dividends the fund has received are included in the return.

The fund began operations on May 19th, 2011.
The I-unit was launched on December 9th, 2019.
Fund currency: Euro.
