ESG Approach

Fondita Global Megatrends (previously Fondita 2000+) is an actively managed thematic global equity fund that invests in shares of publicly traded companies that are well positioned towards three topical megatrends. The identified megatrends are Climate- and Environmentally Smart Solutions, IT & Digitalization and Health & Wellbeing. In addition to the environmentally focused thematic approach the investment process includes both qualitative and quantitative sustainability factors for all holdings. The fund excludes companies with exposure to sectors we perceive as unsustainable or unethical, as well as companies that have severe UN Global Compact breaches. If issues arise regarding ESG we engage through direct dialogue with management. If issues are not properly addressed, we divest the holding.

Disclaimer information

Current Environmental Certificate

The fund has 1 environmental certificate, the Austrian Ecolabel. The fund needs to fulfil certain sustainability related requirements in the investment process, transparency and consequently the holdings, to maintain the certificate. The fund is audited annually based on the requirements of the certificate.

SFDR-Classification

SFDR aims to increase transparency on how financial market participants integrate sustainability into their investment decisions and recommendations. It introduces a classification system with new disclosure requirements for investment products.

Dark Green (Article 9) – The fund has sustainability as their objective.

Light Green (Article 8) – The fund promotes environmental or social characteristics, or a combination.

Grey (Article 6) - Funds which do not integrate any kind of sustainability into the investment process.

MSCI ESG Rating

MSCI assesses thousands of datapoints across 35 ESG Key Issues, focusing on the intersection between a company's core business and the industry issues that can create significant risks and opportunities for the company. Companies are rated on a AAA-CCC scale relative to the standards and performance of their peers. Issue scores and weights combine to overall ESG rating. E, S and G scores are also calculated separately.

Siegfried Holding

Company Case 1

Siegfried Holding AG is a Switzerland-based life sciences company and active in primary and secondary drug manufacturing. The Company produces both drug substances and drug products. The drug substance portfolio includes contract development and manufacturing of both active pharmaceutical ingredients (APIs) and intermediates.
